

Preferred ISPs (Utah)

CONFIDENTIAL
For internal use only

Facility management groups find the best Internet Service Provider (ISP) they can for each meetinghouse within Utah for approximately \$50 per month. Exceptions to spend more in some cases may be given by regional facilities managers. Other providers besides the ones listed may be used where needed.

NEW SERVICE: Contact ISPs directly to see if a location can be serviced and to sign up for services using the contact options.

EXISTING SERVICE: Contact ISPs directly to transition to the Church's national account. Also ask to have your pricing adjusted to the negotiated rate (may depend on existing contracts).

Please refer to mhtech.lds.org for additional information on Meetinghouse Internet. For additional information on Internet service providers see the [guidelines at tech.lds.org](http://guidelines.tech.lds.org). If you need additional assistance, please contact the Church's Global Telecommunications Management Services team at 801-240-9966.

*Speeds listed are NOT guaranteed and are often lower than advertised. **Be sure to check for a utility chase on the property before digging.
